

Social Studies Research Project – Events after World War II

For this project, we will be focusing on researching any topic of your choice so long as it is social studies related (history, geography, politics). Each student will need to choose a topic from below, or a teacher approved topic of your own. You will need to come up with **3 or more good questions to be researched** on your topic. At least two of these questions should be **how or why** questions. You will need to answer your questions on paper by taking jot notes, and then show your information in a way that you prefer (paragraphs, powerpoint, diorama, etc).

Some possible choices for this project are:

Korean War

Vietnam War

9/11

Life/Death of Princess Diana

Canada/USSR Summit Series

Election of President Obama

Beatlemania

Creation of United Nations

Creation/Fall of Berlin Wall

These are just some of my ideas. You may also come up with an idea that you would like to do. Just please let me know what your idea is before you start.
